

Arizona Report of Public Agency Performance on Post School Outcomes

Indicator 14: Secondary Transition / Post School Outcomes

Percent of youth who had IEPs, are no longer in secondary school and who have been competitively employed, enrolled in some type of postsecondary school, or both, within one year of leaving high school.

Measurement

The data are taken from Arizona's Post School Outcomes Survey. Each public education agency (PEA) in the assigned cohort year must administer the survey to all special education students who exited the prior school year. PEAs with a student population of 50,000 or more must administer the survey every year. The percentages represent the number of youth who exited the PEA the prior year, and who reported they are currently employed or attending postsecondary training or education, or both.

Data

The data are survey responses collected between April and September 2009. A PEA is listed with an asterisk (*) when it reported responses for less than 10 surveys. In these instances, the data are not reported to ensure confidentiality.

State Target: 72.3%

State Results: It was not required to report State results in FFY 2008.

PEA	PEA Results by Percentage
Amphitheater Unified District	66.3
